PRODUCT OVERVIEW

Designed for reliable sanitary sealing, this high-elasticity rubber flange provides excellent deformation recovery and accommodates pipe eccentricities for a secure, leak-resistant connection.

TECHNICAL SPECIFICATIONS

Download PDF Drawing

Material	EPDM / NBR / Silicone
Hardness	50–90 Shore A
Color	Black / Custom Options
Operating Temp	–40°C ~ +120°C
Size Options	Standard / Custom Dimensioning
Tolerance Class	ISO 3302-1 compliant
Application Domain	Sanitary / Automotive / Industrial
Production Method	High-precision Compression Molding
Customization Scope	Formulation compounding & structure development
Certifications	UL, REACH, RoHS, California Prop 65

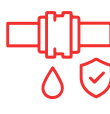

APPLICATIONS

Equipment waterproofing and sealing

shock absorption and cushioning

pipeline leak prevention

insulation and dust prevention

matching sealing components
